# Sdyne Product Description

---

## 1 INTRODUCTION

---

This may be your first step to a successful use of Market Data Information to support your short term trades. All you need to do is to learn how to use the Seoq® Predictive Panel and start your smart trades immediately.

Sdyne is a new company founded by market experts and artificial intelligence specialists that developed several predictive models around the world. Our main product, the Seoq® is an application derived from several disciplines such as Artificial Intelligence, Decision Support Systems, Data Mining, Expert Systems, Statistical Analysis and even Business Intelligence.

The Predictive Panel is refreshed by our Predictive Engine: 4Prox®. We might say that 4Prox® is a rational, digital version what most successful brokers think when they trade. They use their intuitive and rational thought to maximize their investments, they analyze market data to estimate future prices and buy (or sell) whenever they believe it's right.

4Prox® Engine replicates this rational and intuitive process by constantly "reading" on line information, estimating future price variations and then sending this estimations (also called predictions or forecasts) to the Seoq® Predictive Panel.

Every day more companies are using this kind of technologies to make intelligent decisions, to optimize their investments and understand their business. We bring that technology to professional and non-professional brokers in a very simple (but effective) way.

We are confident when we say that once you learn how to read the Seoq®, you'll find that this is an essential tool to your daily trades. We are constantly developing new tools and improving our current ones to help you become a better trader.

# Sdyne Product Description

## 2 OUR PRODUCT

### Different Service Levels

You might say Sdyne offers just one product, but three flavors of it. When you get a subscription of Seoq® Predictive Panel, you have to choose between three different Packages or Service Levels. Let's see what it means...

### 2.1 What is Seoq®?

#### Easy Answer

SEOQ stands for Statistical Online Quotation, it's basically a set of rows; every row is a prediction on an S&P500 Equity. These rows can be seen just by opening the Seoq Predictive Panel at our site (web-based application) or by downloading and using our Seoq® Corporate Feed.

Since you may manage different kind of opportunities and different kind of risks, every ticker may have different combinations of positive and negative yields. You also have three timeframes (called "window") in which predictions should become true.

For each ticker you'll be able to see up to 27 predictions (depending on your service level).

It may be a little bit confusing to talk about several predictions for the same stock, if you need a more accurate approach to this concept please read the Seoq® User Guide ([http://www.sdyne.com/pdf/SEOQ\\_UG.pdf](http://www.sdyne.com/pdf/SEOQ_UG.pdf)).

### 2.2 Three Flavors, two presentations

#### Seoq® Packages

Our product is sold in subscription mode. This means you need to get a monthly subscription to any level to get access to Seoq Predictions.

As we said above, our predictions are divided by Window (time frame), Predicted Positive Yield (expected price rise) and Predicted Negative Yield (expected price fall).

|        |      | +/- YIELD COMBINATION (%)   |              |            |              |             |           |            |           |         | EXTRA FEATURES  |  |
|--------|------|-----------------------------|--------------|------------|--------------|-------------|-----------|------------|-----------|---------|---|--|

The Company operates in four segments: Pharmaceutical Products, Diagnostic Products, Nutritional Products and Vascular Products. Its Pharmaceutical Products include a line of adult and pediatric pharmaceuticals manufactured, marketed, and sold. Its Diagnostic Products include a line of diagnostic systems and tests manufactured, marketed, and sold to blood banks, hospitals, commercial laboratories, clinics, physicians' offices, alternate-care testing sites and plasma protein therapeutic companies. The Company's Nutritional Products include a line of pediatric and adult nutritional products manufactured, marketed, and sold worldwide. Its Vascular Products include a line of coronary, endovascular, and vessel closure devices for the treatment of vascular disease manufactured, marketed and sold worldwide.    |

# Sdyne Product Description

|      |  |   |
|------|--|---|
| ABX  | Barrick Gold Corporation (USA)<br>(Public, NYSE:ABX) | Barrick Gold Corporation (Barrick) is engaged the production and sale of gold, as well as related activities, such as exploration and mine development. Barrick also produces copper and holds interests in a platinum group metals development project and a nickel development project, both located in Africa, and a platinum group metals project located in Russia. Barrick has four regional business units (RBUs): North America, South America, Australia Pacific and Africa. On March 5, 2008, Barrick completed the acquisition of additional 40% interest in the Cortez property. During the year ended December 31, 2008, the Company acquired Cadence Energy Inc.  |
| ADBE | Adobe Systems Incorporated (Public,<br>NASDAQ:ADBE)  | Adobe Systems Incorporated (Adobe) is a diversified software company. The Company offers a line of creative, business, Web and mobile software and services used by creative professionals, knowledge workers, consumers, original equipment manufacturer, developers and enterprises for creating, managing, delivering and engaging with content and experiences across multiple operating systems, devices and media. It distributes its products through a network of distributors, value-added resellers (VARs), systems integrators, independent software vendors (ISVs) and OEMs, direct to end users and through its own Website at www.adobe.com. It also licenses its technology to hardware manufacturers, software developers and service providers, and offer integrated software solutions to businesses of all sizes. It has operations in the Americas, Europe, Middle East and Africa (EMEA), and Asia. On October 23, 2009, Adobe completed the acquisition of Omniture, Inc.               |
| ADCT | ADC Telecommunications (Public,<br>NASDAQ:ADCT)      | ADC Telecommunications, Inc. (ADC) is a provider of broadband communications network infrastructure products and related services. The Company's products offer solutions enabling the delivery of high-speed Internet, data, video and voice communications over wireline, wireless, cable, enterprise and broadcast networks. These products include fiber-optic, copper and coaxial based frames, cabinets, cables, connectors and cards, wireless capacity and coverage solutions, network access devices and other physical infrastructure components. The Company has three segments: Connectivity, Network Solutions and Professional Services. On January 10, 2008, the Company completed the acquisition of Shenzhen Century Man Communication Equipment Co., Ltd. and certain affiliated entities (Century Man).  |
| ADI  | Analog Devices, Inc. (Public, NYSE:ADI)              | Analog Devices, Inc. (Analog Devices) designs, manufactures and markets analog, mixed-signal and digital signal processing integrated circuits (ICs) used in industrial, communication, computer and consumer applications. The Company's signal processing products translates light, sound, temperature, motion and pressure into electrical signals to be used in a range of electronic equipment. Its ICs are designed to address a range of signal processing applications. The Company's products include Analog Products and Digital Signal Processing Products. As of October 31, 2009, Analog Devices had approximately 60,000 customers worldwide.  |
| ADM  | Archer Daniels Midland Company (Public, NYSE:ADM)    | Archer Daniels Midland Company is engaged in procuring, transporting, storing, processing, and merchandising agricultural commodities and products. The Company is a processor of oilseeds, corn, wheat, cocoa, and other feedstuffs, and is a manufacturer of vegetable oil and protein meal, corn sweeteners, flour, biodiesel, ethanol, and other food and feed ingredients. The Company also has a grain elevator and transportation network to procure, store, clean, and transport agricultural commodities, such as oilseeds, corn, wheat, milo, oats, and barley. The Company's operations are classified into three segments: Oilseeds Processing, Corn Processing and Agricultural Services. The Company's remaining operations are aggregated and classified as Other. On July 31, 2008, the Company sold its interest in International Malting Company (IMC). In May 2009, the Company announced that is completed the acquisition of the Schokingag-Schokolade-Industrie Herrmann GmbH & Co. KG. |

# Sdyne Product Description

|      |  |  |
|------|--|--|
| ADPT | Adaptec, Inc. (Public, NASDAQ:ADPT)    | Adaptec, Inc. (Adaptec) provides data storage hardware and software solutions. The Company provides storage solutions that move, manage, store and protect critical data and digital content. The Company delivers software and hardware components that provide storage connectivity and advanced data protection to original equipment manufacturer and system integrators through distribution channel partners. The Company's software and hardware products include application specific integrated circuit, host bus adapters, redundant array of independent disk (RAID) controllers, Adaptec RAID software, storage management software, storage virtualization software and other solutions that span small computer system interface (SCSI), serial attached SCSI (SAS), serial advanced technology attachment and Internet SCSI interface technologies. In June 2008, the Company sold the Snap NAS systems business to Overland Storage, Inc. In September 2008, the Company acquired Aristos Logic Corporation.         |
| ADSK | Autodesk, Inc. (Public, NASDAQ:ADSK)   | Autodesk, Inc. is a design software and services company. The Company offers products and solutions to customers in the architectural, engineering and construction, manufacturing, geospatial mapping, and digital media and entertainment markets. The Company's two-dimension (2D) horizontal design solutions include AutoCAD and AutoCAD LT. In addition, it offers a range of 2D and 3D discipline-specific design and documentation tools. The Company is organized into four reportable operating segments: Platform Solutions and Emerging Business and Other (PSEB), which accounted for 44% of its net revenue during the year ended January 31, 2009 (fiscal 2009), Architecture, Engineering and Construction (AEC), which accounted for 23% of its net revenue in fiscal 2009, Manufacturing Solutions (MSD), which accounted for 21% of its net revenue in fiscal 2009, and Media and Entertainment (M&E), which accounted for 11% of its net revenue in fiscal 2009.   |
| AES  | The AES Corporation (Public, NYSE:AES) | The AES Corporation is a global power company. During the year ended December 31, 2008, the Company owned a portfolio of electricity generation and distribution businesses on five continents in 29 countries, with generation capacity totaling approximately 43,000 megawatts (MW) and distribution networks serving over 11 million people. AES has more than 3,000 MW under construction in 10 countries. It has two lines of business: generation and utilities. In the generation business, the Company owns and/or operates power plants to generate and sell power to wholesale customers such as utilities and other intermediaries. In the utilities business, it owns and/or operates utilities to distribute, transmit and sell electricity to the customers in the residential, commercial, industrial and governmental sectors in a defined service area. In February 2010, Greenhouse Gas Services, a venture of GE Energy Financial Services and The AES Corporation, announced the acquisition of StormFisher Ltd. |
| AET  | Aetna Inc. (Public, NYSE:AET)          | Aetna Inc. (Aetna) is a diversified healthcare benefits company. The Company offers a range of traditional and consumer-directed health insurance products and related services, including medical, pharmacy, dental, behavioral health, group life and disability plans, and medical management capabilities and health care management services for Medicaid plans. The Company's operations are conducted in three business segments: Health Care, Group Insurance and Large Case Pensions. Health Care products consist of medical, pharmacy benefits management, dental, behavioral health and vision plans offered on both an insured basis and an employer-funded, or administrative, basis. Group Insurance products consist of Life Insurance Products, Disability Insurance Products and Long-Term Care Insurance Products. Large Case Pensions manages a variety of retirement products primarily for tax qualified pension plans. In addition, in November 2009, Aetna, Inc. acquired Horizon Behavioral Services, LLC.  |

## Sdyne Product Description

|     |  |   |
|-----|--|---|
| AFL | AFLAC Incorporated<br>(Public, NYSE:AFL)                 | Aflac Incorporated is a general business holding company and acts as a management company, overseeing the operations of its subsidiaries by providing management services and making capital available. Its principal business is supplemental health and life insurance, which is marketed and administered through its subsidiary, American Family Life Assurance Company of Columbus (Aflac), which operates in the United States (Aflac U.S.) and as a branch in Japan (Aflac Japan). Aflac's insurance business consists of two segments: Aflac Japan and Aflac U.S. Aflac Japan sells cancer plans, general medical indemnity plans, medical/sickness riders, care plans, living benefit life plans, ordinary life insurance plans and annuities. # Sdyne Product Description

|      |   |  |
|------|---|--|
| ALTR | Altera Corporation<br>(Public,<br>NASDAQ:ALTR)        | Altera Corporation (Altera) is a semiconductor company. The Company designs, manufactures and markets programmable logic devices (PLDs), HardCopy application-specific integrated circuits (ASICs), pre-defined design building blocks, known as intellectual property (IP) cores, and associated development tools. Altera is a supplier of complementary metal oxide semiconductor (CMOS) PLDs. The Company's PLDs consist of field-programmable gate arrays (FPGAs) and complex programmable logic devices (CPLDs), which are semiconductor integrated circuits, or chips, that its customers program to perform logic functions in their electronic systems. Its HardCopy ASICs enables its customer transition designs from FPGAs to non-programmable implementations. Altera's IP cores can be licensed by customers to add functions to their PLD designs.  |
| AMAT | Applied Materials,<br>Inc. (Public,<br>NASDAQ:AMAT)   | Applied Materials, Inc. (Applied) provides Nanomanufacturing Technology solutions for the global semiconductor, flat panel display, solar and related industries, with a portfolio of equipment, service and software products. The Company's customers include manufacturers of semiconductor wafers and chips, flat panel liquid crystal displays, solar photovoltaic cells and modules (solar PVs), and other electronic devices. It operates in four segments: Silicon, Applied Global Services, Display, and Energy and Environmental Solutions. Applied's Silicon Systems Group (SSG) develops, manufactures and sells a range of manufacturing equipment used to fabricate semiconductor chips, also referred to as integrated circuits (ICs). The services and products offered by the Applied Global Services segment include Fab Services, Mature Technology Services, Automation Systems and Abatement Systems. In December 2009, Applied Materials, Inc. acquired Semitool, Inc. |
| AMD  | Advanced Micro<br>Devices, Inc. (Public,<br>NYSE:AMD) | Advanced Micro Devices, Inc. (AMD) is a global semiconductor company. The Company designs and sells microprocessors, chipsets and graphics processors. It offers x86 microprocessors, for the commercial and consumer markets, embedded microprocessors for commercial, commercial client and consumer markets and chipsets for desktop and notebook personal computers (PCs), professional workstations and servers. The Company operates in three business segments: Computing Solutions segment, which included microprocessors, chipsets and embedded processors and related revenue; Graphics segment, which included graphics, video and multimedia products and related revenue, and Consumer Electronics segment, which included products used in handheld devices, digital televisions and other consumer electronics products, as well as revenue from royalties received in connection with sales of game console systems that incorporate its graphics technology.               |
| AMGN | Amgen, Inc. (Public,<br>NASDAQ:AMGN)                  | Amgen Inc. is a biotechnology company that discovers, develops, manufactures and markets human therapeutics-based on advances in cellular and molecular biology. The Company operates in human therapeutics. It markets human therapeutic products in the areas of supportive cancer care, nephrology and inflammation. Its principal products include Aranesp (darbepoetin alfa), EPOGEN (Epoetin alfa), Neulasta (pegfilgrastim), NEUPOGEN (Filgrastim) and Enbrel (etanercept). Aranesp and EPOGEN stimulate the production of red blood cells to treat anemia and belong to a class of drugs referred to as erythropoiesis-stimulating agents (ESAs). On January 4, 2008, the Company completed the acquisition of Dompe Biotec, S.p.A.  |

## Sdyne Product Description

|     |  |   |
|-----|--|---|
| AMR | AMR Corporation<br>(Public, NYSE:AMR)                | AMR Corporation (AMR) operates in the airline industry. The Company's principal subsidiary is American Airlines, Inc. (American). As of December 31, 2009, American provided scheduled jet service to approximately 160 destinations throughout North America, the Caribbean, Latin America, Europe and Asia. AMR Eagle Holding Corporation (AMR Eagle), a wholly owned subsidiary of AMR, owns two regional airlines, which do business as American Eagle – American Eagle Airlines, Inc. and Executive Airlines, Inc. (Executive) (collectively, the American Eagle carriers). American also contracts with an independently owned regional airline, which does business as AmericanConnection (the AmericanConnection carrier). As of December 31, 2009, American, AMR Eagle and the AmericanConnection airline served approximately 250 cities in 40 countries with, on average, more than 3,400 daily flights. As of December 31, 2009, the combined network fleet consisted of approximately 900 aircrafts.                   |
| APA | Apache Corporation<br>(Public, NYSE:APA)             | Apache Corporation is an independent energy company that explores for, develops and produces natural gas, crude oil and natural gas liquids. In North America, the Company's exploration and production interests are focused in the Gulf of Mexico, the Gulf Coast, East Texas, the Permian basin, the Anadarko basin and the Western Sedimentary basin of Canada. Outside of North America, it has exploration and production interests onshore Egypt, offshore Western Australia, offshore the United Kingdom in the North Sea, and onshore Argentina. The Company also has exploration interests on the Chilean side of the island of Tierra del Fuego. The Company holds interests in many of its United States, Canadian, and other international properties through subsidiaries, including Apache Canada Ltd., DEK Energy Company (DEKALB), Apache Energy Limited (AEL), Apache North America, Inc. and Apache Overseas, Inc.   |
| APC | Anadarko Petroleum Corporation (Public, NYSE:APC)    | Anadarko Petroleum Corporation (Anadarko) is an independent oil and gas exploration and production company, with 2.3 billion barrels of oil equivalent of proved reserves as of December 31, 2009. The Company operates in three operating segments: Oil and gas exploration and production, Midstream and Marketing. Oil and gas exploration and production segment explores for and produces natural gas, crude oil, condensate and natural gas liquids (NGLs). Midstream segment provides gathering, processing, treating and transportation services to Anadarko and third-party oil and gas producers. The Company owns and operates natural-gas gathering, processing, treating and transportation systems in the United States. Marketing segment sells much of Anadarko's production, as well as hydrocarbons purchased from third parties. During the year ended December 31, 2009, Anadarko divested certain oil and gas properties, primarily in Qatar, onshore United States and other international properties.        |

|-----|--|---|
| FNM | Fannie Mae (Public, NYSE:FNM)                  | Federal National Mortgage Association (Fannie Mae) is a government-sponsored enterprise (GSE) chartered by the United States Congress to support liquidity and stability in the secondary mortgage market, where mortgage loans are purchased and sold. The Company participates in the secondary mortgage market by purchasing mortgage loans and mortgage-related securities for its mortgage portfolio. It also makes other investments that increase the supply of affordable housing. The Company is organized in three business segments: Single-Family Credit Guaranty, Housing and Community Development (HCD), and Capital Markets.  |
| FPL | FPL Group, Inc. (Public, NYSE:FPL)             | FPL Group, Inc. (FPL Group) is a provider of electricity-related services. The Company has two principal operating subsidiaries, Florida Power & Light Company (FPL) and NextEra Energy Resources. FPL is a rate-regulated utility engaged primarily in the generation, transmission, distribution and sale of electric energy in Florida. NextEra Energy Resources produces the majority of its electricity from clean and renewable fuels. FPL Group Capital Inc. (FPL Group Capital), a wholly owned subsidiary of FPL Group, has equity interests in FPL Group's operating subsidiaries, other than FPL, and provides funding for those subsidiaries, including NextEra Energy Resources. FPL FiberNet, LLC (FPL FiberNet), a wholly subsidiary of the Company, provides fiber-optic services to FPL, telecommunications companies and other customers throughout Florida.  |
| FRE | Freddie Mac (Public, NYSE:FRE)                 | Freddie Mac is engaged in purchasing residential mortgages and mortgage-related securities in the secondary mortgage market and securitizing them into mortgage-related securities that can be sold to investors. The Company purchases single-family and multifamily mortgage-related securities for its mortgage-related investments portfolio. It also purchases multifamily residential mortgages in the secondary mortgage market and hold those loans either for investment or sale. Freddie Mac finances purchases of its mortgage-related securities and mortgage loans, and manages its interest-rate and other market risks, primarily by issuing a variety of debt instruments and entering into derivative contracts in the capital markets. The Company operates in three segments: Investments, Single-family Guarantee and Multifamily.  |
| GCI | Gannett Co., Inc. (Public, NYSE:GCI)           | Gannett Co., Inc. (Gannett) is an international media and marketing solutions company. The Company publishes 83 daily United States newspapers, including USA TODAY, the daily print newspaper, and more than 650 magazines and other non-dailies, including USA WEEKEND. The Company also operates 23 TV stations in 19 the United States markets and Captivate, which operates video screens in office elevators in urban markets. Gannett's subsidiary Newsquest is the United Kingdom's regional newspaper company with 17 daily paid-for titles, more than 200 weekly newspapers, magazines and trade publications, and a network of Websites. The Company operates in three segments: publishing, digital and broadcasting. In July 2009, Newsquest sold one of its commercial printing businesses, Southernprint Limited. In February 2009, the Company purchased a minority interest in Homefinder, a national online marketplace connecting homebuyers, sellers and real estate professionals. |
| GD  | General Dynamics Corporation (Public, NYSE:GD) | General Dynamics Corporation (General Dynamics) offers a portfolio of products and services in business aviation; combat vehicles, weapons systems and munitions; shipbuilding design and construction, and information systems, technologies and services. General Dynamics operates through four business groups: Aerospace, Combat Systems, Marine Systems, and Information Systems and Technology. The Company's primary customers are the United States Department of Defense and the intelligence community. It has also developed relationships with other United States Government customers, including the Department of Homeland Security and several first-responder agencies. On September 2, 2009, General Dynamics Advanced Information Systems, a business unit of General Dynamics, completed the acquisition of Axsys Technologies, Inc. On January 26, 2009, the Company acquired an information technology services business that performs work for its classified customers.        |

| NSC  | Norfolk Southern Corp. (Public, NYSE:NSC)             | Norfolk Southern Corporation (Norfolk Southern) controls a freight railroad, Norfolk Southern Railway Company. Norfolk Southern Railway Company is primarily engaged in the rail transportation of raw materials, intermediate products, and finished goods primarily in the Southeast, East, and Midwest and, through interchange with rail carriers, to and from the rest of the United States. Norfolk Southern also transports overseas freight through several Atlantic and Gulf Coast ports. Norfolk Southern provides logistics services and offers intermodal network in the eastern half of the United States. Norfolk Southern and CSX Corporation (CSX) jointly own Conrail Inc. (Conrail), whose primary subsidiary is Consolidated Rail Corporation (CRC).  |
| NSM  | National Semiconductor Corporation (Public, NYSE:NSM) | National Semiconductor Corporation is a semiconductor company focused on analog and mixed-signal integrated circuits and sub-systems, particularly in the area of power management. The Company designs, develops, manufactures and markets analog-intensive solutions that improve performance and energy efficiency in electronic systems. It has a diversified product portfolio, which includes power management circuits, audio and operational amplifiers, communication interface products and data conversion solutions. During the fiscal year ended May 31, 2009 (fiscal 2009), approximately 91% of the Company's revenue was generated from Analog segment products. During fiscal 2009, the Company reorganized its product line operations by consolidating the former two-group structure (Power Management and the Signal Path Groups) into one group called the Product Group. In March 2009, National Semiconductor Corporation acquired ActSolar, Inc.                                  |
| NTAP | NetApp Inc. (Public, NASDAQ:NTAP)                     | NetApp, Inc. (NetApp) is a provider of storage and data management solutions. The Company offers solutions for storing, managing, protecting and archiving business data. The Company is engaged in the design, manufacturing, marketing and technical support of networked storage solutions. It offers storage solutions that incorporate its unified storage platform and the functionality of the data and storage resource management software. NetApp markets its products in the United States and in foreign countries through its sales personnel and subsidiaries. NetApp focuses on the data management and storage markets, offering an array of solutions from its high-end products designed for large enterprise customers to entry level products designed for mid-sized enterprise customers. The Company sells its products and services to end users through a direct sales force, value-added resellers, system integrators, original equipment manufacturers (OEMs) and distributors. |
